## Design is in our DNA.

And we believe it is in yours too.  
Let your personal taste and your sense of style  
speak out with our new silk black finish.

Black embodies sophistication  
and elevates any room in an instant,  
whether you aim to fully transform  
your space with a bold design  
or create visual contrast by adding  
only a touch of black.

Our wide choice of products – from  
basins, toilets and furniture to shower trays,  
enclosures and accessories – will  
offer you seemingly endless opportunities  
for self-expression.

Be your own trendsetter.

Dare to be different.

**CLEAN LINES  
AND GENTLE ARCS  
COATED IN  
SILKY BLACK**

With soft geometries and an organic, cylindrical shape Ceraline offers a timeless design. Drawing inspiration from Scandinavian styling, it's going to bring simple, minimalist beauty to your space. The silk black finish makes this

a bolder choice, but combined with natural materials and softer hues you achieve a perfect balance. Designed for everyday living, the higher spout brings comfort and convenience.

# FirmaFlow®

## HIDDEN BRILLIANCE SINCE 1969

We pioneered the ceramic disc cartridge in 1969 and this innovation redefined the way people used bathrooms and made it possible to create the single lever tap. As the ultimate development of the original ceramic disk cartridge, some 50 years on, FirmaFlow® is undisputed market leader with its innovative engineering and extraordinary powers of durability, comfort and control are achieved for twice as long as the industry standard.

### ECOFLOW REGULATOR

WATER IS A PRECIOUS RESOURCE. SAVE WATER WITH ECOFLOW.

Our Eco Flow regulator reduces the water consumption down to 5L/min, without compromising on comfort.

### LIGHTMOVE

SUPERIOR PINPOINT PRECISION OVER WATER TEMPERATURE.

The FirmaFlow cartridge enables finer temperature adjustments between 34°C and 42°C. Precision is paramount with LightMove®, improving tap handle usability, whilst the in-built hot water limiter makes scalding a thing of the past.

### EASYFIX INSTALLATION

EASY AND FAST TO INSTALL.

EasyFix makes installation simple with its reliability reducing maintenance and cutting installation time by 30%.

# FirmaFlow® Therm

## POWERING THE EVERYDAY

Ideal Standard's shower solutions performs beautifully, because we design every model from the inside out. You can install with confidence and ease. While enjoying unrivalled levels of safety and performance. Our shower systems are fitted with FirmaFlow® Therm, the most durable thermostatic cartridge. The ergonomic design of our products delivers the perfect experience, day after day.

### ECOFLOW REGULATOR

WATER IS A PRECIOUS RESOURCE. SAVE WATER WITH ECOFLOW.

Ceratherm T thermostats feature an eco-setting, allowing you to limit flow up to 50% without any loss of performance. And our Idealrain handsprays are fitted with a flow restrictor (8L/min) to provide maximum water efficiency.

### COOL BODY

COOL TO THE TOUCH. PROTECT ALL USERS.

Cool Body technology to ensure the hot water flow is always surrounded by cold water. So whatever your perfect temperature is, the Ceratherm T body stays cool to the touch at all times. Giving total peace of mind, protecting users of all ages from scalding.

### TEMPERATURE CONTROL

JUST RIGHT, EVERY TIME.

Should the hot or cold water supply unexpectedly cut off, the water flow will stop automatically to protect from shocks and scalds. Only restarting, under complete control, when the water supply returns.

### MAXIMUM SPRAY

MADE FOR MAXIMUM COMFORT.

Idealrain delivers a personal shower experience. Large handsprays ensure maximum comfort and edge-to-edge nozzles are designed to create big indulgent downpours.

### EASY CLEAN

PEACE OF MIND

Our head showers and hand showers feature soft rub-clean nozzles. They help reduce limescale and facilitate cleaning for a shower that will look good for a long time.

CORNER INSTALLATIONS

**Quadrant/offset quadrant**  
These curved enclosures suit almost any bathroom design, creating an open environment, even in restricted spaces.

**Sliding Door with side panel**  
Sliding doors offer maximum access where there is limited space to open a door. They can also work well in larger spaces to create luxurious showering areas.

**Corner entry**  
When space is limited on either side of a shower enclosure a corner entry with sliding doors offers an effective solution.

**Pivot door with side panel**  
These doors swing open to offer wide access, which when combined with a side panel creates a light and airy showering area.

**Saloon door with side panel**  
The perfect solution in areas where the large swing of a single door might prove awkward or impossible. Comprising two glass panels, each pivot separately and at opposite sides. This of course reduces the swing of each door into the area in front of the shower enclosure.

ALCOVE INSTALLATIONS

**Sliding door**  
Sliding doors are a practical solution for alcoves, especially larger spaces. The door glides on smooth running wheels for access.

**Pivot door**  
These doors work well in alcoves allowing the maximum showering area combined with the maximum access.

**Saloon door**  
Using a saloon style door configuration can enable you to install a wider shower enclosure as the doors present a comparatively small external obstacle.
